

SAMSUNG SMART SIGNAGE EM65E/EM75E & MEETING BOX

Increase productivity of business meetings with an optimized meeting room solution for better collaboration and communication

Samsung SMART Signage EME series 65" and 75" displays are optimized for a company meeting room environment in the company providing a large size screen and content transmission over HDBaseT

Deliver Immersive Meeting Experience

Entice your audience with crisp, clear FHD images and realistic color on a sleek display with Samsung d-LED technology. A sleek, lightweight design and slim bezels keep your audience focused on your message, helping you capture more business opportunities. The accompanying pivot function gives you the flexibility to display your message vertically or horizontally for an optimal view

Stream FHD Media Over HDBaseT™

EME series 65" and 75" displays come with an embedded HDBaseT receiver, which simplifies cable connections around the display and facilitates long distance transmission of content. As HDBaseT technology transmits uncompressed Full-High-Definition (FHD) multimedia content through a single Local Area Network (LAN) cable, users can avoid experiencing degradation in picture quality and dealing with the hassles of cabling and managing a cluttered system configuration.

Make information sharing easier

The recently announced Samsung Meeting Box (Model Code: SBB-MT12EA) is an optional packaged product which is composed of Meeting Box and Meeting Console. Meeting Box is an HDBaseT transmitter with 2xHDMI™, IR, RS232, Ethernet, USB input and 1 HDBaseT, 1 DVI output, which enables a simple change of content source and cable connections around the display. Meeting Console acts as a kind of remote controller, which allows users to change the display's content source between 2 HDMI inputs, control volume and turn power on/off.

HDBaseT input of Samsung EME display is perfectly suited for use with the Meeting Box option in the meeting room for optimized collaboration and productive communication.
