Enhanced display with 100% color volume

Samsung's Quantum Dot Technology enables hotel operators to showcase one billion colors at 100% color volume, giving guests realistic colors in any scene, dark or light. This enhanced display brings even the subtlest visual detail to life, providing realistic content and improved guest satisfaction.

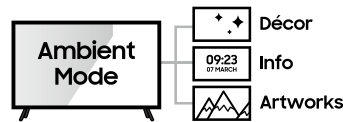

Refined, rich image presentation

Quantum HDR technology brings the power of High Dynamic Range (HDR) picture refinement to any hotel room. Using dynamic metadata, each frame is fine-tuned within a given program, delivering an optimal, detail-rich and memorable viewing experience for every guest.

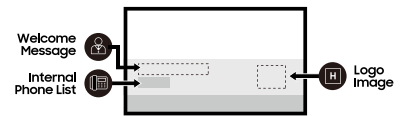

* The range of Quantum HDR claims luminance based on internal testing standards and is subject to change according to viewing environment or specific conditions.

Harmoniously complement any space

Ambient mode allows the HRQ750 Series to enhance any room, even when the screen is switched off. Décor mode gives guests interactive, colorful backgrounds, art lovers can enjoy a range of beautiful pieces, while information such as the time and date can also be displayed on any chosen background.

Creating a memorable welcome

Samsung's HRQ750 hospitality display provides an intuitive, customizable home application for guests. Through this, hotel managers can easily incorporate welcome messages to guests, hotel logos and branding, other useful information such as internal phone numbers.

Access all the latest content

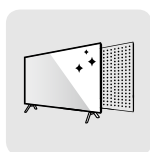

Samsung's Smart hub offers guests easy access to a variety of custom content. Guests can enjoy their favorite entertainment during the stay as if they are at home.

* Some of the applications may not be supported in specific regions or countries.

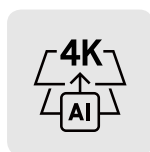

Immersive viewing experience

The HRQ750 Series' 360°, bezel-less design maximizes the immersive viewing experience. Sleek and minimal from front to back, the HRQ750 display ensures every guest sees the picture, not the screen around it, creating a luxurious space and a memorable stay.
