

Samsung displays with Logitech video conferencing solutions

Powerful collaboration solutions for home or office

Now more than ever, businesses need easy-to-use technology that enables teams to coordinate and collaborate quickly and efficiently. Samsung understands these demands and has joined forces with Logitech, a leading innovator in office and home office solutions, to provide businesses and employees with the tools they need to work effectively from anywhere. As the leader in visual display technology with the industry's most comprehensive display lineup including PC monitors, Samsung is integrating its strengths with Logitech's wide variety of video conferencing options for both meeting rooms and personal desks, allowing customers to find the perfect solution for any workplace setup.

Solutions for personal workplace

In today's flexible working environment, businesses of all sizes need to provide technology that enables employees to stay connected whether in the office or working remotely. Samsung's powerful displays can turn any space into an efficient workstation. With sizes, resolutions and screen types to meet any need, businesses can select the exact setup each employee needs to work and collaborate effectively — from home or office. Adding a Logitech USB-compatible personal video conferencing solution instantly transforms the working space into an integrated and highly effective workspace. Given the right tools, employees can be productive and connected to their team from anywhere.

How to choose the best solution per your needs

Standard monitor | Business web camera

T65F

- FHD resolution, IPS panel
- Borderless design
- Ergonomic feature

24"

Solutions for meeting rooms

No meeting room is complete without a Samsung display and Logitech meeting room solution. Offering plug-and-play compatibility, one touch meeting controls and certified to work with industry leading software Zoom, Microsoft Teams and Google Meet. Businesses can be sure to find the optimal setup for any meeting room regardless of the size, layout or budget. With a wide range of display sizes to choose from, and scalable video collaboration kits, Samsung and Logitech's bundled meeting room solutions are effective and easy to use. The right tools help save valuable time and make teamwork and collaboration seamless.

How to choose the best solution per your needs

Room Size	Standard	Advanced	Professional	Logitech Solution
Small size rooms (up to 6 people) 	QET Series <ul style="list-style-type: none"> • UHD resolution • Brightness : 300nit • Operation hour : 16/7  <p>50" 55"</p>	QBR Series <ul style="list-style-type: none"> • UHD resolution • Brightness : 350nit • Operation hour : 16/7  <p>50" 55"</p>	QMR Series <ul style="list-style-type: none"> • UHD resolution • Brightness : 500nit • Operation hour : 24/7 • Non-glare panel  <p>50" 55"</p>	Logitech MeetUp <ul style="list-style-type: none"> • All-in-one conference cam with an 120° field of view for small rooms • HD 4K optics, PTZ features, 5X zoom • 3-microphones with noise cancellation and custom-tuned speaker  <p>* Certified to work with Zoom, Microsoft Teams, Google Meet</p>
