

# Ready to meet, chat and learn

## Webcam Monitor S4

With a webcam and built-in microphone at the top of the screen, the monitor delivers enhanced convenience. Join a video conference, take an online class or attend a virtual event – all without the need to connect any external device and enjoy a clean, simple and efficient experience.

### Built-in webcam for better interactions

### Webcam when you need it

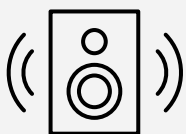

- Built-in webcam for any type of meeting, at any time
- Keep your space neat and tidy without wires or additional peripherals
- Stay secure and sleek by simply pushing webcam down into the monitor when no longer needed

### Instant Windows login

- Biometric sensors in camera that use integrated facial recognition
- Login instantly to Windows devices without the need to type a password
- Enhanced security and efficiency

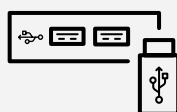

### Comprehensive functionality for enhanced collaboration

#### Built-in speakers

- Listen to any content with ease
- No need for additional peripherals

#### USB hub

- Multiple connectivity options
- No concerns around a lack of ports on device

#### IPS panel

- Accurate tones and shading from virtually any angle
- No color washing for optimum color and clarity
